Did you see? On Monday, the Centers for Disease Control and Prevention (CDC) [released a new study](#) that details Head Start's success in mitigating the spread of COVID-19 and ensuring the health and safety of children and staff. Way to go, Head Start!

Now, we need your help to amplify the report and get the support Head Start needs! As you know, making these adaptations to keep your communities safe comes at a cost. Congress' current plans include **no new funding** to cover Head Start's additional COVID-19 expenses.

Join us in urging Congress to #UniteforHeadStart and provide additional COVID-19 relief.
